ANNUAL REPORT OF THE NEW ENGLAND DIVISION DIRECTOR FOR 1947

Board of Directors
American Radio Relay League

Gentlemen:

This is my twelfth annual report as the director of the New England Division. Brace yourselves, gentlemen, for again this is to be one of my well-known blunt reports (from a c.w. man, you know, but one who tries to be fair with all).

During the year I attended the New England Division convention at Boston (supposedly the largest amateur radio convention ever held -- and by the looks of the crowd, I can believe it); the Massachusetts state convention at Framingham; the New Hampshire state convention at Manchester (would have liked to have been present at the Vermont hamfest also, but can't be in two places at the same time); a meeting of the Pittsfield, Massachusetts, Radio Club; a meeting at Norwich, Connecticut, (and maybe one or two more).

The problem of ARRL-club co-operation should be brought up at the coming Board meeting, and thoroughly discussed. There is trouble in this division at times in getting sample programs from convention committees. This then results in last-minute confusion in getting things set to the satisfaction of the director. Even though a director does none of the actual work of planning a convention, neither can he permit a convention to be put on with only one meeting scheduled for the entire program. Do any of the rest of you ever get into difficulties with matters such as this? Also, some of the convention committees complain that they get no direct help from the ARRL on their conventions (such as an OK on letters they write to radio companies for prizes, etc.). Let's bring this whole subject out in the open, and see what's what, From my point of view, it is not a satisfactory set-up as it stands now.

The problem of new amateurs is a continuing source of grief to me. Nearly all of them (shall we say) get their new shiny licenses and then say, "Hooray, now I can forget that blasted code." They further say, "Boy, I'm gonna play it smart. No one is gonna know that I'm just a lid. If I go on c.w. they'll know I'm a newcomer cuz I can't send 30 w.p.m. If I go on 'phone I can do just as well as all the others, and they'll never know I'm a new ham. I DOOD IT." There, gentlemen, in a nutshell, is why so many of the new hams go on 'phone. And, in my opinion, their increase in knowledge stops that very day -- for most of them. Why, oh why, can't they see that if they went on c.w. they could continue to increase their skill for at least another two or three years? Maybe they don't want to, huh? I don't know the answer. Maybe some of the rest of you do. I sure hope so, for someone must know, and fast.

As some of you already know, I am a member of the Planning Committee. The results of the Planning Committee meeting in New York were well stated in QST. No need for me to bore you with any of the news already known. The individual vote of each member of the committee was not included in the report, and of course did not need to be. Just for the record, however, I voted against the proposal to increase 'phone on 20 meters. I also voted against

The package of supplies which will be sent to the chairman of your precinct on Monday, April 3, 1950, contains the items listed below. The package should be delivered unopened to the polling place by the chairman, opened only in the presence of the other Inspectors, and each item checked immediately. Telephone to the Election Commission, Daly 8-3711, should any items be missing.

Your package contains:

(a) Ballots:
1 Package official and sample Judicial ballots
1 Package official and sample Aldermanic ballots (2nd, 14th, and 20th Wards only)

(b) Tally Sheets:
2 Tally sheets - Judicial
2 Tally sheets - (Alderman 2nd, 14th, and 20th Wards only)

(c) Defective Ballots
2 Statements for defective and challenged ballots

(d) Supplies
Supply Kit
Voters' slips
1 Ballot bag for Judicial ballots
(1 Ballot bag for Aldermanic ballots in 2nd, 14th, and 20th Wards only)
2 Large envelopes, one for City returns and the other for County returns

(e) Payroll in triplicate - Rate $14.00 per day, $3.00 extra for chairman. Payroll must be returned separately. The oath of the chairman may be acknowledged before the Notary Public at the Election Commission office.

(f) Sundries
Fraudulent Voting Posters
Blank forms of oath for Inspector or Ballot Clerk on election day to fill vacancy

(g) 5 copies of the 1949 General Information Booklets for Election officials (one for each official)

Oaths of Inspectors or Ballot Clerks sworn in to fill vacancies at the polling place must be returned in the regular return envelopes to the City Election Commission.

The office will be open until 2:00 o'clock a.m. to receive returns.

BOARD OF ELECTION COMMISSIONERS

W. H. GAEDKE
Secretary

TAKE THIS WITH YOU ON ELECTION DAY

I trust that all new Directors who take office and accept this great responsibility on January 1, 1948, will have the help of Divine Providence in the conduct of their office and that you, the older members of the Board, will never again permit the future of amateur radio and the very existence of the League to be jeopardized by ill-conceived proposals. In this connection, I feel that the League's by-laws are at fault. They should contain a provision requiring that Director's resolutions (excluding routine agenda matters), to be offered at any meeting of the Board, be submitted in complete form to the League's President at least ninety days in advance of such regular or special meeting; that the President appoint various committees (on which he may serve as an ex-officio member) and assign such resolutions to the respective committees for their study and recommendation at the next meeting of the Board; that such resolutions be published in complete form in QST at the earliest possible date after the filing so as to appear in the publication not less than thirty days prior to the meeting. By this method every important issue would be thoroughly studied and hasty action avoided. At the same time, no Director would be sacrificing any of his power or rights.

I trust that at your 1948 meeting you will vote proper recognition and consideration of our League officials for their splendid work at the International Telecommunication Conference. They have gained the respect of all thinking amateurs throughout the world and it is only fitting and proper that our records contain the sentiment of the majority.

Respectfully submitted,

C. A. COLVIN, WØVHR

Omaha, Nebraska,
December 31, 1947

March 30, 1950

To the Election Officials of the City of Milwaukee

- READ CAREFULLY -

Inspectors and Ballot Clerks should report to the polling place to which they are assigned not later than 6:45 o'clock a.m. so that everything is ready for voting at 7 o'clock a.m.

BALLOTS

At the Judicial Election on Tuesday, April 4, 1950, there will be one Judicial ballot. In the 2nd, 14th, and 20th Wards there will be a separate ballot for Alderman.

The ballots are to be turned over to the Ballot Clerks immediately, so that they can start initialing them and insert the precinct number and ward on the back of each ballot. Each ballot must be initialed by both Clerks, and the precinct and ward numbers written in on the back of every ballot before being presented to the voter. Any ballot discovered later without the initials of the two Ballot Clerks, will result in the Clerks' dismissal, disqualification from future service, and a fine of $5.00 (State Law - Sec. 6.36 (2).

Before a Ballot Clerk absents himself from the polling place, he must be sure that a sufficient number of ballots have been endorsed to last until he or she returns.

There will be one ballot box to be used to deposit the Judicial ballots. In the 2nd, 14th, and 20th Wards there will be an extra ballot box for Aldermanic ballots. Tack a sample ballot on the top of each ballot box to prevent depositing official, voted ballots in the wrong box.

Ballot Clerks should fold the ballots and instruct the voter when receiving the ballots to so refold the ballots after they have been voted, that the printed endorsement on the back of the ballot faces outside, permitting the election official at the ballot box to readily check the ballot to see that none is deposited in the ballot box without the endorsement of the two Ballot Clerks.

When the canvass is completed, each set of ballots shall be tied securely in bundles, then sealed with sealing wax in such a manner that they cannot be untied without breaking the seal. (String is in ballot bag.)

REGISTRATION LISTS

A police officer will deliver two check-and-poll lists, together with a supplementary registration list attached to the polling list on election morning. He will also leave his report of the registered voters on the supplementary list, dated April 4, 1950, and wherever he has made a notation after a voter's name, such as "Moved", "Not There", etc., be sure to transfer such information to the supplementary list attached to your poll list. This police report must be returned to the City Election Commission in the regular return envelope.
